THE WATERBLOCK X DIFFERENCE

Waterblock X by Synchronwood.com Sdn Bhd is our most advanced sustainable flooring yet. Sophisticated sandblasted-effect matte finish, fortified next-gen core, sleek skirting-free installation, zero plastics, and superior resistance to buckling and breakage.

WATERBLOCK X

HIGH-PERFORMANCE FLOORING

STANDARD WATERPROOF FLOORING

ORIGIN

100% Malaysian-owned factory

PRODUK MALAYSIA – KBMM CERTIFIED

Local-Collaborations
Import & OEM

WATERBLOCK COREBOARD TECHNOLOGY

Certified by German Institute
200 hours underwater
non-destructive testing

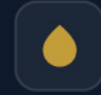

X
Unavailable

DURABILITY

Commercial Grade · Class 32
AC4 Rating
Designed for high-traffic & utility areas

Real-life performance AC3 or below
But often marketed as AC4/AC5

STAIN RESISTANCE

Non-porous barrier
Liquid & household spills simply sit on the
surface for easy cleanup

SPC or vinyl surfaces are porous
Dirt stains become permanent over time

FAST & EASY INSTALLATION

Installs without skirting
Experienced professional technicians may
install continuously – no transition profiles
required at doorways

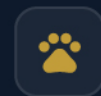

Requires skirting & professional
workmanship
General waterproof laminate requires T-profiles
at every doorway

DIMENSIONAL STABILITY

50% less expansion than other waterproof
laminates
Superior resistance to buckling & breakage

General waterproof laminate requires 12–
15 mm expansion gap
Prone to buckling in humid climates

PET PROOF

Melamine wear layer
Resists paw prints, scratches, spills &
everyday wear

Plastic or PVC wear layer & UV coating
Not fully immune to micro-scratches from
claws

SUSTAINABLE ECO-FRIENDLY

100% PVC & plastic-free
PEFC-certified wood-fibre source –
comfortable, authentic wood feel underfoot

EUROPEAN E1 FORMALDEHYDE
STANDARD

LVT, SPC, ESPC are plastic or mining-based
SPC & vinyl: potential microplastic shedding
General waterproof laminate: may be high in
formaldehyde
